Feature ID	Description	Details	Status	Added to Roadmap	Estimated Release
82242	Yammer: Discover communities in Communities app for Microsoft Teams	Browse, discover, and join communities around your Yammer network directly in the Yammer Communities app for Microsoft Teams on the web, desktop, or mobile.	In development	2021-05-03	July CY2021
82998	Microsoft Teams: Together Mode for VDI	Together mode uses of AI segmentation technology in meetings to digitally place participants in a shared background, making it feel like you're sitting in the same room with everyone else.	In development	2021-05-03	May CY2021
81090	Microsoft Teams: Power Automate templates to be added to teams templates	Team templates enable end users to create the right team with predefined channels and preinstalled apps. Select Microsoft provided team templates will include a new Power Automate tab. In the tab, you can find a variety of Power Automate flow templates that support the template type.	In development	2021-05-03	May CY2021
81808	Microsoft Teams: Live Transcript in unscheduled Teams meetings	Now unscheduled/ad hoc Teams Meetings are supported by Live Transcript.	In development	2021-05-03	July CY2021
81809	Microsoft Teams: Live Transcript in Channels Teams Meetings	Channel meetings in Teams are now supported by Live Transcript.	In development	2021-05-03	July CY2021
81952	Microsoft Search: Custom result types in Microsoft Search	New support for custom result types allows you to create result types with modern display templates with adaptive cards for SharePoint content for SharePoint home and sites, Office.com and Bing.com.	In development	2021-05-03	December CY2021
72240	Microsoft Teams: Reading Progress in Teams for Education - reading practice and review software	Reading Progress is a reading practice and fluency experience that is part of Microsoft Teams for Education Assignments. Reading Progress saves teachers time in capturing audio/video reading fluency practice and helps students practice reading out loud independently in a private and non-stigmazating way. Reading Progress also provides insights and analytics to educators.	In development	2021-05-04	August CY2021
83094	Microsoft Teams: Apps in Meeting Chats with External Users	We will now support apps added by native users (hosts) in meeting chats with external users (users from other domains).	In development	2021-05-04	May CY2021
81950	Outlook: Floor Plans for workspace booking in mobile devices	Add floor plans to your reserved workspaces so users can easily see where a workspace is located. To add floor plans, in the Microsoft 365 admin center, go to Answers, and then select Floor plans.	In development	2021-05-04	May CY2021
81954	OneDrive and SharePoint for Business: Immersive Reader support in OneDrive and SharePoint	Users can now open Word files directly into Immersive Reader from inside OneDrive and SharePoint.	In development	2021-05-04	May CY2021
81961	Exchange: Online - Tag for external email	Exchange will make available a PowerShell cmdlet so that admins can enable the protections against spam & phishing threats from external senders. This will be achieved by presenting a new tag on emails called "External" in the message list in Outlook on the web, the new Outlook for Mac, Outlook for iOS and Android. In some Outlook clients, a "mail tip" will be included at the top of the reading pane with sender's email address.	In development	2021-05-04	May CY2021
81962	Microsoft Lists: Export Microsoft Lists to Excel	Export Microsoft Lists to Excel, to work with the data in a spreadsheet. You'll now have the option to open the list as an Excel Workbook or CSV file - giving you the ability to analyze your data in Excel no matter your OS platform - Windows or macOS.	In development	2021-05-04	May CY2021
81964	Microsoft 365 compliance center: Ability to delete a record label	With the update, you will be able to delete unused record labels within the Microsoft 365 Records Management solution.	In development	2021-05-04	May CY2021
82017	Microsoft Teams: Group Assignments	With the new group assignment feature you can organize your students into groups so they can work together to create, collaborate and submit the same work - like a Whiteboard file or Word document. Each student in the group gets the credit and recognition for having turned in their work.	In development	2021-05-04	August CY2021
82019	Microsoft Teams: Apps in Assignments	Educators and students rely on a variety of tools to support learning. With this new feature, educators can include links to content from other learning and resource tools directly into a Teams assignment.	In development	2021-05-04	September CY2021
82020	Microsoft Teams: Whiteboard integration with Assignments	Digital whiteboards give educators and students a canvas to spark creativity and collaboration. Now, educators can include a Whiteboard as reference material or the content type of a Teams assignment.	In development	2021-05-04	July CY2021
82021	Microsoft Teams: Distribute Assignments to more students: from 200 to 300	With this update educators will be able to distribute assignments to up to 300 students.	Rolling out	2021-05-04	June CY2021
82022	Microsoft Teams: Lens integration with Assignments	With the Lens integration into Assignments, students will be able to directly include images of their physical work as part of submitting their assignment. In addition, students will be able to crop and rotate their work to help with educator readability.	Rolling out	2021-05-04	May CY2021
72233	Word, Excel, PowerPoint for Business: Recommended files in Office	Microsoft Office displays a list of recommended files on the File tab, or start page, of Word, Excel, or PowerPoint on Windows. This list allows you to keep track of work around you and quickly access files with activity you value most such as edits, mentions, comments by people you interact with. This feature uses machine learning to predict which files you're most likely to want to work on next and presents those as a set of cards you can choose from. Only files that you have access to in OneDrive or SharePoint are suggested. For each recommended file you'll see a card with a thumbnail of the file, information about what kind of activity has been happening with that file, and when that activity occurred.	In development	2021-05-06	June CY2021
82712	Microsoft Teams: Present slides from PowerPoint app	Present your slides directly from the PowerPoint app to a Teams meeting via PowerPoint Live in Teams.	In development	2021-05-06	May CY2021
81958	SharePoint and OneDrive for Business: Share dialog : adding Link settings to the quick permissions	We are making link settings more discoverable by adding it to the quick permissions inside the OneDrive Share Dialog.	In development	2021-05-06	May CY2021
81967	Outlook: Update on how feedback is submitted	We are updating how and where feedback is submitted inside Outlook. Feedback can still be submitted from inside Outlook, but you will notice changes in the submission process.	In development	2021-05-06	May CY2021
81969	Microsoft Compliance center: Advanced Audit - Search term events in Exchange Online and SharePoint Online for DoD	Advanced Audit helps organizations to conduct forensic and compliance investigations by providing access to crucial events such as when mail items were accessed, or when mail items were replied to and forwarded, and when and what a user searched for in Exchange Online and SharePoint Online.	In development	2021-05-06	December CY2021
81970	Microsoft 365 Compliance center: Communication Compliance Sensitive information types per location report	Review and export the sensitive information types detected in all your Microsoft 365 and non-Microsoft communication channels currently scoped into your Communication Compliance policies.	In development	2021-05-06	June CY2021
81971	Microsoft 365 Compliance center: Communication Compliance discrimination classifier	The Discrimination classifier aims to detect and triage explicit discriminatory language.	In development	2021-05-06	June CY2021
81972	Microsoft 365 Compliance center: Communication Compliance cross tenant classifier feedback	Cross tenant feedback enables customers to provide feedback on messages that were misclassified (such as false positives) by a Communication Compliance policy leveraging any of the classifiers.	In development	2021-05-06	July CY2021
51126	Microsoft Teams: Chat with External Users in Group Chats	With this feature users can create group chats that include people external to their organization using Teams (requires all users to have external access capabilities enabled).	In development	2021-05-07	May CY2021
83140	Excel: Search values within Data Validation dropdown list	When using a Data Validation dropdown list, now you can start typing the value you're looking for, and Excel will search & suggest to auto complete it for you.	In development	2021-05-07	May CY2021
81963	Microsoft 365 compliance center: Retention for Teams	Admins will be able to apply retention and deletion policies to Teams chats and conversations.	In development	2021-05-07	May CY2021
