

Feature ID	Description	Details	Status	Cloud Instance	Added to Roadmap	Estimated Release
65362	<a href="#">Microsoft Teams: Chat preview notification settings, Government Clouds</a>	Users can change settings and manage previews for their chat notification toasts.	In development	GCC	8-Jun-2021	June CY2021
83952	<a href="#">Microsoft Compliance center: Insider Risk Management data appears in Activity Explorer</a>	Activity explorer provides risk investigators and analysts with a comprehensive tool that surfaces detailed information about alerts to enhance the alert triage experience.	In development	Worldwide	8-Jun-2021	June CY2021
83953	<a href="#">Microsoft Compliance center: Insider Risk Management data appears in Activity Explorer</a>	Activity explorer provides risk investigators and analysts with a comprehensive tool that surfaces detailed information about alerts to enhance the alert triage experience.	In development	DoD, GCC High, GCC	8-Jun-2021	July CY2021
83954	<a href="#">Microsoft Compliance center: Insider Risk Management recognizes device indicators</a>	Policy indicators are now available to capture signals from Windows 10 endpoints to deliver new insights related to obfuscation, exfiltration, and infiltration of sensitive information.	In development	GCC, GCC High, DoD	8-Jun-2021	July CY2021
83955	<a href="#">Microsoft Compliance center: Insider Risk Management integration with Teams and Power Automate</a>	Insider Risk Management integration with Microsoft Teams allows for richer collaboration across an organization. Additionally, integration with Power Automate allows organizations to configure Power Automate flows to automate tasks for Insider Risk Management cases and users.	In development	GCC High, GCC	8-Jun-2021	July CY2021
83956	<a href="#">Microsoft Compliance center: Insider Risk Management: Define priority user groups and detect data leaks by priority users</a>	Define users in your organization that need closer inspection based on factors such as their position, level of access to sensitive information, or risk history. Once created, these groups can be included in certain policy templates, such as detecting data leaks by users included in a priority user group.	In development	GCC, GCC High, DoD	8-Jun-2021	July CY2021
83957	<a href="#">Microsoft Compliance center: Enhanced policy creation wizard, policy customization, and policy health check for Insider Risk Management</a>	We're improving the experience of Insider Risk Management policy creation, including enhanced guard rails to enforce proper policy configuration and ability to customize policy templates to meet the unique needs of your organization. Additionally, Insider Risk Management will now surface policy status to identify misconfigured policies which could impact detections.	In development	DoD, GCC High, GCC	8-Jun-2021	July CY2021
83958	<a href="#">Microsoft Compliance center: Insider Risk Management: Intelligent detections – Domain settings</a>	Intelligent detection domain settings help you define risk levels for activities to specific domains. By specifying domains in these settings, you can increase or decrease the risk scoring for activity that takes place with these domains.	In development	GCC, GCC High, DoD	8-Jun-2021	July CY2021
83959	<a href="#">Microsoft Compliance center: Insider Risk Management: Data leaks by disgruntled users</a>	Detects data leaks by users near a stressor event.	In development	DoD, GCC High, GCC	8-Jun-2021	September CY2021
83960	<a href="#">Microsoft Compliance center: Insider Risk Management integration with Teams and Power Automate</a>	Insider Risk Management integration with Microsoft Teams allows for richer collaboration across an organization. Additionally, integration with Power Automate allows organizations to configure Power Automate flows to automate tasks for Insider Risk Management cases and users.	In development	DoD	8-Jun-2021	September CY2021
83961	<a href="#">Microsoft Compliance center: Insider Risk Management: General Security Policy Violations</a>	Detects general security violations by users. Includes activity generated by Microsoft Defender for Endpoint alerts, which detect possible security violations performed on devices onboarded to your organization.	In development	DoD, GCC High, GCC	8-Jun-2021	December CY2021
83962	<a href="#">Microsoft Compliance center: Insider Risk Management: Security policy violations by priority users</a>	Detects security violations by users included in a priority user group. Includes activity generated by Microsoft Defender for Endpoint alerts, which detect possible security violations performed on devices onboarded to your organization.	In development	GCC, GCC High, DoD	8-Jun-2021	December CY2021
83963	<a href="#">Microsoft Compliance center: Insider Risk Management: Security policy violations by departing users</a>	Detects security violations by departing users near their resignation or termination date. Includes activity generated by Microsoft Defender for Endpoint alerts, which detect possible security violations performed on devices onboarded to your organization.	In development	DoD, GCC High, GCC	8-Jun-2021	December CY2021
83964	<a href="#">Microsoft Compliance center: Insider Risk Management: Security policy violations by disgruntled users</a>	Detects security violations by users near a stressor event. Includes activity generated by Microsoft Defender for Endpoint alerts, which detect possible security violations performed on devices onboarded to your organization.	In development	GCC, GCC High, DoD	8-Jun-2021	December CY2021
83965	<a href="#">Microsoft Compliance center: Insider Risk Management: Microsoft Defender for Endpoint alerts</a>	Enables you to import indicators from Microsoft Defender for Endpoint related to unapproved or malicious software installation or bypassing security controls.	In development	DoD, GCC High, GCC	8-Jun-2021	December CY2021
83966	<a href="#">Microsoft Compliance center: Increased set of first-party indicators for Insider Risk Management</a>	The Microsoft 365 Insider Risk Management solution will now recognize an increase set of first party indicators, including Endpoint (Windows 10), Microsoft Teams, Azure Active Directory, SharePoint Online, and Microsoft Cloud Access Security.	In development	GCC, GCC High, DoD	8-Jun-2021	December CY2021
68351	<a href="#">Whiteboard: Inking improvements</a>	New improvements and capabilities have been added to the inking experience with Whiteboard for the web. Users can now: Change pen colors, change pen thickness, use highlighter, intelligently convert their ink shapes, use keyboard shortcuts to switch between tools.	In development	Worldwide	8-Jun-2021	June CY2021
82957	<a href="#">Microsoft Teams: Music on Hold for Consult/Transfer</a>	Music on Hold for Consult/Transfer scenarios ensures that users placed on hold will hear music while consultation and transfer occurs, ensuring that the caller knows that the call is still active.	In development	(not listed)	8-Jun-2021	July CY2021
83353	<a href="#">Microsoft Teams: Sharing device audio on iOS and Android</a>	Include device audio when sharing on iPhones/iPads and Android devices.	In development	Worldwide, GCC, DoD, GCC High	8-Jun-2021	June CY2021
83396	<a href="#">Microsoft Teams: Assign the Presenter Role in Meetings for GCC – High</a>	Organizers can now assign one or more Presenters in their meetings with the "Who can present?" meeting option.	In development	GCC High	8-Jun-2021	June CY2021
81948	<a href="#">Exchange: Scheduler for Microsoft 365</a>	Scheduler is a service that enables a digital assistant to schedule your meetings through email.	Rolling out	Worldwide	8-Jun-2021	June CY2021
82028	<a href="#">Microsoft Planner: Recurring tasks</a>	Configure your tasks to occur on a regular cadence in Planner.	In development	Worldwide	8-Jun-2021	November CY2021
83131	<a href="#">Microsoft Teams: Shared channels now supports tabs for third-party/custom apps</a>	Microsoft Teams Connect shared channels now support tabs built by 3P/custom apps. Developers will be able to configure their apps to support this capability in advance of the public rollout of Teams Connect, which is slated for release later this year.	In development	GCC, Worldwide	9-Jun-2021	July CY2021
83484	<a href="#">Microsoft Teams: Cortana now available for EDU customers</a>	Cortana voice assistance in the Teams mobile app is now available for EDU customers in en-US to help you streamline communication, collaboration, and class-related tasks in school using spoken natural language. With Cortana voice assistance, you can call someone or perform class-related tasks, you can message someone or send message to your class. Also, you can find and share files, and search or navigate within the Teams mobile app.	In development	Worldwide	9-Jun-2021	July CY2021
81982	<a href="#">OneDrive: Sync admin reports macOS support</a>	New dashboard to check sync app versions, sync status, top sync errors on individual macOS devices and monitor deployment progress of Known Folder Move.	In development	Worldwide	9-Jun-2021	August CY2021
82032	<a href="#">OneDrive: Known Folder Move for macOS</a>	You'll be able to roll out Known Folder Move (KFM) for your macOS users and redirect their Desktop, Documents and Pictures folders to OneDrive.	In development	Worldwide, GCC, DoD, GCC High	9-Jun-2021	November CY2021
82033	<a href="#">OneDrive: Files On-Demand refresh for macOS</a>	We've revamped the OneDrive sync experience in macOS based on Apple's new File Provider platform to improve the Finder experience for OneDrive. We are updating the Files On-Demand experience to a more native look and feel, for the latest version of macOS.	In development	GCC High, DoD, GCC, Worldwide	9-Jun-2021	November CY2021
82035	<a href="#">OneDrive: Sync client support for Apple Silicon</a>	We will be updating OneDrive for Mac to be a universal app that will run natively on Macs with M1.	In development	Worldwide, GCC, DoD, GCC High	9-Jun-2021	November CY2021
82037	<a href="#">Microsoft Cloud App Security: Cloud Access Security Broker for GCC</a>	The Microsoft Cloud App Security (MCAS) offering for GCC is built on the Microsoft Azure Government Cloud and is designed to inter-operate with the Microsoft 365 GCC environment. Microsoft Cloud App Security is a Cloud Access Security Broker (CASB) that secures SaaS and multi-cloud solutions. It provides rich visibility, control over data travel, and sophisticated analytics to identify and combat cyberthreats across all your cloud services.	In development	GCC	9-Jun-2021	July CY2021
82039	<a href="#">Microsoft Stream: Updated Web player for video &amp; audio files across Microsoft 365</a>	The web player for audio and video files that are stored in OneDrive and SharePoint (including when those files are embedded in Teams, Yammer, and SharePoint), is updated with a new user look and feel, and adheres to greater levels of accessibility for keyboard navigation and screen readers.	In development	Worldwide	9-Jun-2021	September CY2021
82041	<a href="#">Microsoft Lists: Support for Progressive Web App (PWA)</a>	You can now install the web version of Microsoft Lists as a Progressive Web App (PWA) in Microsoft Edge, Google Chrome, Firefox or other browser that supports Progressive Web Apps. After you install the web version of Microsoft Lists as a Progressive Web App, it will work similarly to any stand-alone desktop application.	In development	DoD, GCC High, GCC, Germany, Worldwide	9-Jun-2021	July CY2021
82043	<a href="#">Microsoft Viva: Sort topics in web part</a>	In the Topics web part, add the ability to sort topics where you have confirmed your connection.	In development	Worldwide	9-Jun-2021	June CY2021
82044	<a href="#">Microsoft Viva: Updates to multi-geo support</a>	We can process content that is in all regions and query from all regions. We support region moves. We keep the data in the corresponding regions according to data sovereignty.	In development	Worldwide	9-Jun-2021	June CY2021

Feature ID	Description	Details	Status	Cloud Instance	Added to Roadmap	Estimated Release
65362	<a href="#">Microsoft Teams: Chat preview notification settings, Government Clouds</a>	Users can change settings and manage previews for their chat notification toasts.	In development	GCC	8-Jun-2021	June CY2021
82045	<a href="#">Microsoft Viva: Accelerated publishing for topic curation</a>	Edits on topics or new, manually added topics will appear in Manage Topics view and for end users to discover within minutes.	In development	Worldwide	9-Jun-2021	August CY2021
82046	<a href="#">Microsoft Viva: Integrate Microsoft Search bookmarks with topic cards and pages</a>	Many organizations have already used bookmarks in search results to direct users to authoritative content for query results. With this new feature, you'll be able to integrate the search bookmarks into topic cards and pages - allowing users to continue to find those sources augmented with the topical content on the page or card.	In development	Worldwide	9-Jun-2021	September CY2021
82047	<a href="#">Microsoft Viva: Exclude content from topic discovery based off applied sensitivity labels</a>	Use Microsoft Information Protection (MIP) sensitivity labels to control which files should not be included in topic discovery.	In development	Worldwide	9-Jun-2021	July CY2021
83143	<a href="#">Microsoft Teams: Teams Webinars integrate with Dynamics 365 Marketing to enable lead nurturing.</a>	With this feature, webinar organizers can drive post event engagement with registrants by leveraging Dynamics 365 Marketing. The attendee engagement data syncs with Dynamics 365 Marketing org and enabled automated user journeys. This is only available for users who also have Dynamics 365 Marketing SKU.	In development	Worldwide	10-Jun-2021	June CY2021
82040	<a href="#">OneDrive for Business: Progressive Web App (PWA)</a>	You can now install the web version of OneDrive for Business as a Progressive Web App (PWA) in Microsoft Edge, Google Chrome, Firefox, or other browser that supports Progressive Web Apps. After you install the web version of OneDrive for Business as a Progressive Web App, you can launch it from your desktop, and it will work the same way as it does in your web browser.	In development	Worldwide, Germany, GCC, GCC High, DoD	10-Jun-2021	July CY2021
82042	<a href="#">Microsoft Viva: Refinements to related sites displayed on topic pages</a>	Differentiate between sites that have been pinned by a person, and those that have been suggested for the Topic.	In development	Worldwide	10-Jun-2021	June CY2021
82049	<a href="#">Microsoft Viva: Use Syntax taxonomy to generate topics</a>	Select terms from the taxonomy service to initiate creation of Viva topics, using the term definitions and tagged files.	In development	Worldwide	10-Jun-2021	August CY2021
82051	<a href="#">Microsoft Search: Sync your non-Azure Active Directory users and groups to support search permissions</a>	Microsoft Graph connectors for Microsoft Search now supports syncing of non-Azure Active Directory users/groups from your external data source with your Azure Active Directory users/groups so that your end users can see search results permissioned to them.	In development	Worldwide	10-Jun-2021	July CY2021
82052	<a href="#">Microsoft Defender for Office 365: First contact safety tip</a>	First contact safety tips notify recipients the first time they get a message from a sender or if they don't often get messages from the sender. This capability adds an extra layer of security protection against potential impersonation attacks. Previously the first contact safety tip was available via PowerShell cmdlet, and with this release will now be available for configuration in the anti-phishing policy.	In development	Worldwide	10-Jun-2021	June CY2021
82053	<a href="#">Microsoft Stream: Block downloads for channel meeting recordings saved to SharePoint</a>	There is a new admin setting for channel meeting recordings saved to SharePoint that determines if the recordings are saved to the channel in the "Recordings" folder (as they are today) or to a "Recordings/View only" folder. The new option for the "View only" folder will restrict the editing and download of the channel meeting recordings by team & channel members. Only team & channel owners will have full control over the files with this new option.	In development	Worldwide	10-Jun-2021	July CY2021
83062	<a href="#">Microsoft Teams: New default for Teams notification style</a>	Teams notification style will be defaulted to native notifications for new users. Currently the default style is Teams purple, with this change to native notifications the user will benefit from support for assist mode, action center, accessibility and more.	In development	GCC, DoD, GCC High	11-Jun-2021	July CY2021
84178	<a href="#">Microsoft Teams: Increasing Chat Size from 300 to 1000 Participants for GCC-High and DoD</a>	Currently, 300 meeting participants can be part of the meeting chat; this feature update will allow 1000 participants to participate in the meeting chat.	In development	DoD, GCC High	12-Jun-2021	July CY2021
84179	<a href="#">Microsoft Teams: Large meeting support for GCC-High and DoD</a>	Hold interactive meetings and webinars with more attendees—up to 1,000.	In development	GCC High, DoD	12-Jun-2021	July CY2021
